Special Needs Dental Service

Patient Information

positive
about community services

Who do you see?

The Special Needs Dental Service is provided by Nottinghamshire Healthcare NHS trust. You may be referred to the service if you are unable to access routine dental care in a general dental practice due to some impairment, disability or complex medical condition. This may include:

- Learning disabilities
- Severe Mental Health problems
- Autistic Spectrum Disorders
- Severe physical problems
- Children in Care
- Very young children with extensive decay
- Severe medical problems
- Life limiting conditions
- Very nervous children

Your GP, dentist or other health professional will have made a referral to the service for you.

You may be entitled to help with dental charges. The leaflet 'NHS Dental Services in England' gives more information on this.

Please bring proof of exemption with you to the appointment. This may be for example exemption card or letter stating that you are entitled to certain benefits.

Where will I be seen?

Once your referral has been accepted, your details are sent to the most appropriate clinic nearest to where you live.

We have clinics located at various sites across Nottingham, including:

- Carlton • Clifton
- Hucknall • Hyson Green
- Meadows • Strelley
- Sneinton

All of our clinics are accessible by wheelchair users, have on-site patient car parking and disabled parking.

What happens next?

You have been given an appointment for an assessment. At this assessment, the dentist will take a full medical history, including details of any medical problems you may have or medication you are on. Please bring with you a list of any medication you are currently taking.

The dentist will examine inside your mouth and discuss with you what treatment may be carried out. Following this you will agree a treatment plan with the dentist.

The dentist or any member of the dental team will be happy to answer any questions or queries you may have.
