

Junk modelling

...giving children
the best start

Early Learning Goal: Expressive arts and design. Creating with materials

You are your child's teacher:

Use words to
describe what you
are doing

Face to Face play
time.

Develop new skills
when using tools
such as scissors
and hole punches.

Junk modelling is a great low cost no cost activity that involves making things out of recycled materials.

You will need—Boxes

Tubes

Containers

Lids

Pens, pencils, crayons, sticky tape, glue, hole punch, string,
wallpaper, wrapping paper, glitter

Activity— Encourage your child to use different materials to join boxes and recycled materials to create and make together.

Junk modelling is a great way to encourage children's imagination, creative and problem solving skills.
