

Neurodevelopmental Support Team.

Parent/Carer Support and Information sessions 2026.

A chance to feel less isolated. An opportunity to meet other parents/carers with similar experiences.

What to expect if you come to the group for the first time:

We recommend you attend the start of the session so that you are provided with an introduction to the session.

Experienced staff from the NST are on hand to offer guidance, support, useful strategies, information, and answer questions. Each session there will be a theme subject for group discussion.

Occasionally there will be a guest speaker, and the scheduled themed group discussion may be rearranged.

Due to the organisation of the group, please do not bring children.

This will enable you to participate in the discussions with parents and our practitioner. We cannot offer supervision, also we need to consider the confidentiality of other families and the health and safety for everyone in the meeting.

No booking or diagnosis required. **IMPORTANT-** Due to adverse weather conditions, over winter, the group may be cancelled at short notice. Occasionally group dates may be rescheduled so check the latest NST Newsletter for upcoming dates.

How the session will be delivered

- Session plan – signing in.
- Welcome and introductions to the group.
- Themed information and group discussion.
- Networking & Peer support. Time for parents/ carers/ NST to talk with each other.
- Time to review the handouts and resources

The group is centred around support & group discussion

If you have an enquiry this may be resolved via FamilyServiceNST@nottsc.gov.uk
